Every Shriner in the city was present, and the degree went as smooth as the inside of a Standard Oil Pipe Line. Nobles Mix, At-water, Grant, Wood, Standiford, Byers, Frey, Coolidge, and Johnston especially distinguished themselves, and the kazoo band was given a vote of thanks for having learned a new tune, which has been copyrighted and printed for Shrine circulation only. Woodward & Lothrop have lately opened in that city. While the occasion was one filled with regrets on account of the pleasant relations which existed between the assembled company and Brother Olcott and which were about to be severed, the evening was enlivened with many happy reminiscences of the good times which they had enjoy together. After the elaborate dinner had been disposed of Brothers Wood, Dingman, Wardle, Scaggs, and several others made appropriate speeches, voicing the general sentiments of the company in complimentary allusions to the well-known ability and popularity of Brother Olcott. # THEY MATCHED COPPERS.

Three Young Men Toss Up for the Right to Court a Girl.

A wedding is announced between two wellknown young people of Des Moines, says the Leader. There is an interesting story connected with the event and it would be unfair to call names.

Four years ago the prospective bride, then quite young, was receiving the attention of three gentlemen. They, too, were young, little more than boys, and just entering upon the different lines of work which they had adopted for life.

Two of them, indeed, were still students. Matters ran along without much change with the four for some time. They each understood the situation.

Nothing in the girl's manner indicated any preference. The three boys were the best of friends, although the situation was such as to strain their relations a little.

Finally the three met one day by accident. In some way the young lady's name was brought up, and after consideration it was decided to match pennies to see who should withdraw from the contest.

It was stipulated that the winner should be in honor bound to devote himself exclusively to the young lady in the future, and to win her hand if possible. The losers from that moment were to withdraw from the race com-

The losers were further pledged to act as guardian brothers to the young lady and see that the winner carried on no filrtations with

other girls. The contracts were carried out to the letter,

and the girl was never told why two of her ad-mirers so suddenly retired. And so, after these years, she is at last to become the wife of him whom luck favored in a game of chance. Both are still young and the gentleman is prospering in business. Of the losers in the contest, one adopted trade and is married. The other entered upon a professional career. He is unmarried, and his name would be recognized, were it mentioned, all over the Western city.

Doesn't Believe in Physical Culture. Boston Home Journal.

Concerning women and physical culture an intelligent woman said recently: "I have given up all interest in the movement for the socalled physical culture of women. It is not that I do not believe most heartly in the full and symetrical development of the body powers, but the whole cult is being perverted to sensualism. The beauty teachers are devoting themselves not to wholesome training for health, but to making 'visions of loveliness' with direct regard to their effect on the other sex, and after as frank methods as could ever have been employed in fitting Circassians for the harem. A woman's first interest in physical culture is to fill out her neck so that she may look better in a decollete gown. It all goes with our heaps of cushions, shaded lights and refinements of perfumes. It's the development of curves and the study of poses, and the absolute defication of sensualism. It would be a good plan to let in on the business a little wholesome sunshine and fresh air."
